

**CENTRAL MAINE POWER COMPANY  
RESPONSE TO COMPETITIVE ENERGY SERVICES' DATA REQUEST NO. 7  
DOCKET No. 2008-255**

**January 14, 2010**

**CES-07-02**

- Q.** Please provide copies of all reliability analyses, reliability need assessments or similar such studies performed by or on behalf of CMP related to those portions of CMP's electric grid that are not covered by or included in the Needs Assessment supporting the Maine Power Reliability Project filings.
- A.** CMP objects to this request on the grounds that it is unduly burdensome and vague and requests information that is confidential and proprietary. The information requested is voluminous as any reliability analysis ever performed by or for CMP is within the scope of the request. Further, CMP cannot discern what "portions of CMP's electric grid... are not covered by or included in the Needs Assessment," making the request unduly vague. Finally, CMP objects on the ground that information contained in any requested reports and analyses may contain information that is confidential (including CEII) and proprietary.

Notwithstanding and without waiving this objection, please refer to the responses to IECG-01-21 and ODR-01-19.

**Objection Prepared and Submitted By:**
