

**CENTRAL MAINE POWER COMPANY  
RESPONSE TO EXAMINER'S DATA REQUEST NO. 2  
DOCKET No. 2008-255**

**October 27, 2008**

**EX-02-19**

**Q.** (Volume I, Page 38, Lines 6-10) Please supply a listing of schools by line segment that exist within 500 feet of a ROW (after property acquisition) containing any new line segment, rebuilt line segment, or line segment that is to be re-rated, the distance to the ROW before and after property acquisition, and the identity of the parcel.

**A.** The attached files are images of the schools we know of that may meet the above criteria. The South Berwick school building (Attachment 2) is not within the 500 feet of the ROW, but the school property appears to be. In Benton (Attachment 1), the school abuts the CMP ROW, but this segment has been eliminated from the MPRP scope. It was included in the CPCN filing as the scope change occurred after the filing.

Please note that our review is ongoing due to some errors and omissions discovered in the data published by the state office of GIS.
