- Q.** Please provide a visual simulation from the Henderson's home in Dixmont.
- A.** An e-mail has been sent to the address provided by the Henderson's to arrange a time for conducting the photo-simulation. It is anticipated that this would occur November 20 or 21. The Henderson's sent a message back that those dates were not good, but did not provide any alternative dates. We continue to try to set up a meeting date. CMP will provide the simulations once the work is completed.
